Ernie Maleniza
Barry Johnston

Executive Director
Richard Bushey

Report period January 24, 2009 to May 5, 2009

Construction in the Vancouver Island North Zone is slowing. General consensus is that the volume of larger projects is down but the volume of residential renovations is up. We have two new members in our Zone with our total Zone membership at approximately 80 members.

We have been working towards providing a higher level of educational services to our zone members. We are doing well in that regard having hosted a Level 3 study session in March. I would like to thank the facilitators for making these educational opportunities available as they were well received by the attendees.

We also have another examination sitting planned for May 13, 2009 in Nanaimo.

Our last zone meeting was held in the Town of Comox on January 23, 2009. Our Northern Members took advantage of attending a closer meeting and we had approximately 20 members attend. Douglas King from Hilti Canada gave us a Firestop Systems Presentation. It was an interesting meeting with the guest answering our questions regarding the topic. Our next zone meeting is planned for sometime in May, 2009.

Respectfully submitted on behalf of Vancouver Island North Zone Members,

Regards,

Colin Bollinger, RBO
Vancouver Island North Zone Director, BOABC
