South Vancouver Island – AGM Report April 2010

South Vancouver Island, like the rest of Canada is showing great signs of rebounding from the global recession that has plagued us for the last couple of years. Building permit applications, housing and commercial starts are improving in most communities.

Building Officials on South Vancouver Island continue to show strong support for the BOABC with high attendance numbers at regular monthly meetings. Monthly meetings provide a great opportunity for members to educate themselves on matters contained in the BC Building Code, and provide an opportunity for members to discuss how certain parts of the code are interpreted.

The aim of the monthly meetings is to promote a consistent application of the BC Building Code as well as providing an opportunity to network with other inspectors and stakeholders within the construction industry. At most monthly meetings members from within the construction industry make presentations to inform and educate Building Official's on new products that are entering the marketplace. This forum provides a great opportunity for a question answer session with the manufacturer or supplier of a product.

Serving the Province of British Columbia for over 50 years

This is my last report as the South Vancouver Island Zone Director.

I would like to extend my appreciation to the members within my zone for their confidence in me to effectively represent the interests of the South Island.

I would like to thank my fellow executive committee directors for their professionalism, integrity and commitment. I would like to thank Richard Bushey for his vision and direction. Lastly, I would like to thank Jennifer Schwaertzel for her countless hours and dedication to the Association. Without this type of devotion and perseverance from all of you our Association would not be what it is today.

It has been an honour to work with all of you.

Respectfully Submitted

Eric Law, RBO, CRBO
South Vancouver Island Zone Director
