

*Retired City of Coquitlam Building  
Inspector Dennis Weber was the*

subject of a "Graduate" column which  
was published in the 2006  
Spring / Summer edition of the  
BOABC Newsletter. Dennis still  
spends much of his time in his workshop  
and recently completed this detailed  
scale model of an Italian Ocean  
Going Tugboat. When Dennis  
received this model it was in a state  
initial construction only and the

*printed instructions were written in Italian only. Dennis met the challenge and the completed model is now displayed in the entrance of their retirement home in south Surrey.*
